

REPSOL WINDSCREEN CLEANER

Description and Recommendations

This product is ready to use. It thoroughly cleans and removes the grease from the inside and outside of a vehicle's windscreen. It eliminates dirt, mosquitoes and grease from the windscreen, leaving it clean and providing excellent visibility.

It is applied by using it to fill the windscreen washer reservoir. In order to defrost the windscreen, it should be applied directly onto the glass.

Qualities

- Great cleaning power.
- Protects the windscreen washer circuit from freezing, down to -15°C .
- As it contains antifreeze, it can be used to defrost the windscreen.
