

NEW PROCUREMENT PLATFORM REPSOL SAP Ariba

More agile, more competitive

REPSOL SAP Ariba PROCUREMENT PLATFORM

Transforming our Procurement Function

What's changing in Repsol?

Starting from **July 2020** onwards, Repsol group will start using a **new procurement platform based on the SAP Ariba cloud solution**, which will substitute some of our current procurement systems

For now, the new SAP Ariba platform will coexist with the old SRM sourcing system. When the times comes, we will inform you as suppliers when you need to change platform

What is SAP Ariba?

SAP Ariba is a market leading e-commerce cloud platform which covers the entire source-to-settle process, including strategic sourcing, operational buying and invoice & payments processing:

- More than **4.6 million companies** in the Ariba Network
- **180 million** transactions a year
- More tan USD 3.2 trillion in business commerce annually

OUR OBJECTIVES

Why are we moving to SAP Ariba?

Objectives

- **Simplify, automate and digitize** procurement processes through a cloud based e-commerce platform based on industry best practices
- Transform ourselves into an **agile function** focused on the continuous improvement of our processes
- **Eliminate paper based transactions** reducing effort in administrative activities
- **Improve the collaboration with our suppliers**

Supplier Benefits

- Improve the collaboration with our suppliers through digitization
- **Single and integrated supplier portal** to interact with Repsol, reducing complexity
- **Online, real-time visibility** of the status of your orders, invoices and payments
- **Global support**

The implementation of SAP Ariba allows us to evolve our procurement function to become more agile and more competitive through digitization, strengthening the collaboration, communication and operations with our suppliers

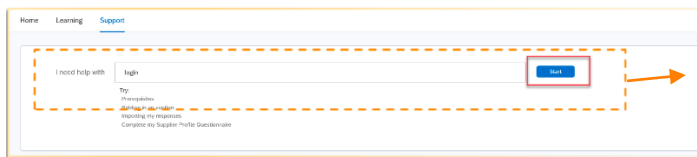

WHAT DOES THIS MEAN FOR YOU AS A SUPPLIER?
