All the quality, innovation, and guarantees you'd expect from a global leader

When you choose Repsol Lubricants, you select all the quality and the guarantees offered by an integrated, global energy company that is active in exploration, production, refining, distribution, and marketing in over 80 countries, providing efficient and innovative solutions to millions of people around the world.

You also choose the best in technological innovation. That's because our cutting-edge, globally leading Research and Development Center is where our technicians and researchers work to continuously improve our products and services to ensure greater efficiency, and enhanced technical and environmental quality.

Repsol Lubricants exceed the most demanding industry norms and standards, and have been tested in international-level competitions to guarantee maximum efficiency.

Range of nautical lubricants for leisure boats
Repsol SAILOR Range
a range of the highest-performing lubricants

Repsol Lubricants meet industry standards, and contribute to the durability of the engine and exhaust treatment system. Tests carried out on the most advanced engines show that they also guarantee (Fuel Economy) and reduce CO2 emissions.

At Repsol, we select the best refinement processes to manufacture our own lubricant bases and opt for high quality additives. This allows us to offer you products with specific formulations for each manufacturer, taking care of your engine and giving you extra confidence.

Thanks to this, we offer you the best lubricants for your boat:

**SAILOR DIESEL BOARD 4T 15W40**
Multigrade oil specifically formulated for modern four-stroke onboard diesel marine engines and water-cooled off-board engines. Its balanced formula complies with the demanding requirements of marine engine manufacturers. It enables the operation of leisure vessels, in the most severe conditions.

**Quality Levels:**
- API CI-4/CH-4/SL
- MAN 3275-1
- CUMMINS CES 20076/20077/20078
- ACEA E7/E5
- VOLVO VDS-3

**SAILOR GASOLINE BOARD 4T 10W40**
Lubricant oil developed for all types of outboard and outboard-inboard water-cooled 4-stroke gasoline engines. Its composition provides excellent protection against corrosion and it is recommended by the majority of leisure boat manufacturers. Its formula meets the strict NMMA FC-W standards for boat engines and reliable sailing and ensures that the engine runs smoothly.

**Quality Levels:**
- NMMA FC-W/FC-W(CAT)
- API SM
- CUMMINS CES 20076/20077/20078
- ACEA E7/E5
- VOLVO VDS-3

**SAILOR OUTBOARD & JET SKI 2T**
Lubricant oil for high performance outboard 2-stroke engines. Its highly refined and exclusive additive mineral base formula enables the highest performance in jet skis, and offers the best protection against moisture and corrosion. Its exceptional quality meets the NMMA TC-W3 standard, leaving you free to enjoy the thrill of riding a powerful jet ski, while ensuring maximum mechanical protection.

**Quality Levels:**
- NMMA TC-W3
