REPSOL LAUNCHES THE ‘REPSOL EN ACCIÓN’ SHAREHOLDERS’ COMMUNITY

- **The ‘Repsol en Acción’ Shareholders’ Community is an initiative which aims to provide optimal and transparent service to the Company’s shareholders.**
- **Through the new ‘[Repsol en Acción](#)’ website, shareholders will be able to participate in different types of exclusive events and access detailed financial information.**
- **These initiatives include information events, such as the Roadshows to be held in Barcelona, Madrid, and Bilbao on March 12, 14 and 21.**

Repsol has created the ‘Repsol en Acción’ Shareholder’s Community, an initiative designed to provide optimal and transparent service to the Company’s retail shareholders, a key public for Repsol currently representing 16 of its shareholders.

The main channel for relation with shareholders will be the new ‘Repsol en Acción’ space hosted on the corporate website that will allow shareholders to access information on subjects that may be of interest to them, particularly the financial aspects of the company such as the share price and trend, dividends and annual reports.

By registering in the ‘Repsol en Acción’ Shareholder’s Community, shareholders will be able to participate in activities specially organized for them. These include information events such as the Roadshows where the Investor Relations Area will share the company’s financial results and discuss all the issues brought up by participants. The forthcoming Roadshows will be held in Barcelona (March 12), Bilbao (March 14) and Madrid (March 21).

In respect of the information events, shareholders may also attend the ‘Momentos Repsol’ (Repsol Moments) where they will be able to enjoy a gastronomic experience and also have the opportunity of learning about the company’s performance.

There are other advantages relating to the characteristic traits of Repsol, such as the world of motorcycles, gastronomy, technological innovation, and promotions related to the company's business. A good example is the 'Ser Accionista Tiene Premio' (Being a Shareholder has its Rewards) initiative, from February 10 to March 15, where shareholders can obtain a 6% discount on fuel purchases.
