Ordinary General Shareholders’ Meeting 2010

Reports of the Board of Directors on Proposals of Resolutions

Report of the Board of Directors on the proposal of resolutions concerning the first point on the Agenda ("Review and approval, if appropriate, of the Annual Financial Statements and the Management Report of Repsol YPF, S.A., of the Consolidated Annual Financial Statements and the Consolidated Management Report, for the fiscal year ended 31st December 2009, of the proposal of application of its earnings and of the management by the Board of Directors during said year.").

The Financial Statements and different documents of which these consist, as laid down in the Commercial Code, the Joint-Stock Companies Act and other applicable legislation, including the current sectoral regulations, both the individual ones of Repsol YPF, S.A. and the consolidated ones of its Group of Companies, along with the Management Report of Repsol YPF, S.A. and the Consolidated Management Report, were drawn up by the Board of Directors at its meeting dated February 26th, 2010, after review by the Audit and Control Committee and by the Disclosure Committee of Repsol YPF, S.A., and after certification by the Executive Chairman and the Chief Financial Officer.

The Consolidated and Individual Management Reports incorporate, in a separated section as an Annex, the Annual Report on Corporate Governance for the fiscal year 2009. These Financial Statements and the Management Reports have been examined by the Auditors of Repsol YPF, S.A. and of its Consolidated Group.

All these documents, together with the Auditors Report, the special Report referred to Section 116 bis of the Securities Market Act, the Corporate Responsibility Report and the Report on the remuneration policy for Directors are available to the shareholders at the company registered office in Paseo de la Castellana 278, where these can be asked for directly or be sent free of charge to wherever is requested.

Additionally, all those documents are available on the company’s web site (www.repsol.com).

Along with the approval of the Financial Statements there is similarly a proposal, as in previous years, for the approval of the application of the earnings, as stated in the Notes to the individual Financial Statements, and the management by the Board of Directors during fiscal year 2009, whose remuneration is detailed in the Notes to the Financial Statements, the Annual Report on Corporate Governance and the Report on the remuneration policy for Directors.

Report of the Board of Directors on the proposal of resolutions concerning the second point of the Agenda ("Amendment of the Articles of Association").

1. Purpose of the report

In pursuance of article 144.1.a) of the Joint Stock Companies Act, the Board of Directors of Repsol YPF, S.A. (the "Company") submits this report to justify the proposed amendment of certain Articles of the Articles of Association, laid before the General Meeting of Shareholders for approval.

2. General justification of the proposal

The amendments laid before the General Meeting of Shareholders for approval are proposed to adapt the current text of the Articles of Association to the recent amendment in the regulation of Joint Stock Companies by Law 3/2009, April 3rd.

This reform of the Articles of Association is contemplated together with the reform of the Regulations of the General Shareholders Meeting, which is proposed in item three on the agenda.

3. Detailed justification of the proposal

Having broadly defined the reform, we now justify and explain in greater detail the specific amendments to the Articles of Association submitted to the general meeting for approval.

1. Amendment proposal of the first paragraph of Article 9, related to capital calls and default by the Shareholders.

The purpose of this proposal is adapting the provisions related to the payment of any portion of the capital not paid up to the new wording of the first paragraph of Article 42 of the Joint Stock Companies Act as amended by Law 3/2009, which currently states: “Shareholders must pay to the Company any portion of capital which has been subscribed but not fully paid up in the form and during the maximum terms set up in the Articles of Association.”

According to the new wording of said Article of the Joint Stock Companies Act, the Articles of Association of the Company must state the form and maximum term for the payment of any outstanding portion of the subscribed capital.

The proposal submitted to the shareholders also take into consideration (i) paragraph 2 of Article 115 of the Joint Stock Companies Act, which establishes five years, since the relevant resolution, as the maximum term for the payment of shares issued in a capital increase in consideration of non-monetary contributions; and (ii) the fact that neither the corporate law nor the Commercial Register Regulations currently establish any maximum term for the payment of shares issued in a capital increase in consideration of monetary contributions.

In consideration of the foregoing, it is proposed that the Board of Directors would be entitled to set the moment, within five years since the resolution approving the capital increase, whether in consideration of monetary or non-monetary contributions, for the payment of not fully paid up shares issued as a consequence of such increase. The resolution approving the capital increase will determine the form of such payment and any other applicable details.

2. Amendment proposal of Article 12 bis ("Preferential subscription right").

Law 3/2009 also amended paragraph 1 of Article 158 of the Joint Stock Companies Act, bringing the regime governing preferential subscription rights and convertible bonds into line with the European Court of Justice ruling 18 December 2008. Therefore and according to the new wording of paragraph 1 of Article 158 of the Joint Stock Companies Act, it is proposed to clarify the references to the preferential subscription right of shareholders in capital increases in consideration of cash contributions, and to delete those related to the preferential subscription rights of convertible bondholders.

3. Amendment proposal of the first paragraph of Article 22, related to special quorum constitution requirements for the valid approval of special resolutions.

New corporate events will require this strengthened quorum for the valid constitution of the General Shareholders Meeting in addition to those currently mentioned in Article 22 of the Articles of Association (the issue of debentures, transformation, merger, demerger, increase or reduction of capital or any amendment of the Articles of Association); the suppression or curtailment of preferential subscription rights in issues of new shares, transfer en bloc of assets and liabilities and the transfer of the registered office abroad.

Therefore, it is proposed to include these corporate events in Article 22 of the Articles of Association.

To facilitate comparison of the old and new versions of the Articles to which amendments are proposed, a transcript of both texts is incorporated to this report in two columns, for purely informative purposes.
Proposed amendment

Article 9.- Capital calls and default by the shareholders
The shareholder is obliged to pay the part of the capital not paid up in the manner and terms decided upon by the Board of Directors.

Any shareholder who has not paid such calls within the period established for said payment of unpaid capital shall be in default.

Shareholders in arrears with the payment of calls on share capital may not exercise their voting right. The amount of their shares shall be deducted from the capital stock for the calculation of the quorum.

Neither shall defaulting shareholders be entitled to receive dividends or to preferential subscription in new shares or convertible bonds. Once the amount of the capital calls has been paid, together with the owed interests, the shareholder may claim the payment of the dividends not prescribed, but may not claim the right to preferential subscription if the period for exercising it has already expired.

When the shareholder is in default, the Company may, as appropriate and in view of the nature of the unpaid contribution, claim the fulfillment of the payment obligation, with payment of the legal interest and any damages caused by the delayed payment, and may, at the shareholders’ account and risk of the defaulting shareholder or file summary proceedings for collection against the assets of the shareholder in order to collect in cash the underdelivered unpaid part of the capital together with the interest.

Should the Company have opted to transfer and the sale is not possible, the share shall be redeemed, with the consequent reduction of capital, any sums already received on account of the share being retained by the Company.

The buyer of the unpaid share shall be jointly and severally liable with all preceding transferees, and at the election of the Company’s Directors, for payment of the unpaid part.

The liability of the transferees shall last for three years as from the date of the respective transfer.

Should the Company have opted to transfer and the sale is not possible, the share shall be redeemed, with the consequent reduction of capital, any sums already received on account of the share being retained by the Company.

The buyer of the unpaid share shall be jointly and severally liable with all preceding transferees, and at the election of the Company’s Directors, for payment of the unpaid part.

The liability of the transferees shall last for three years as from the date of the respective transfer.

Article 12 Bis.- Preferential subscription right
In any capital increase involving the issue of new shares, the existing shareholders and holders of convertible bonds may exercise the right to subscription in the new issue to a number of shares in proportion to the nominal value of the shares already held or to those that would correspond to holders of convertible bonds should conversion be carried out at that time, within the time limit established for that purpose by the General Meeting of Shareholders or by the Board of Directors, which may not be less than the time period established by applicable law in force at the time.

The General Meeting, or the Board of Directors as the case may be, that resolves to increase the capital may resolve to fully or partially suppress the preferential subscription right of shareholders and holders of convertible debentures, for reasons of corporate interest.

In particular, corporate interest may justify suppression of the preferential subscription right whenever this is necessary to facilitate (i) the acquisition by the company of any assets (including stocks and shares in companies) that may be convenient for the company’s business purpose, (ii) the place- ment of new shares on foreign markets permitting access to sources of financing, (iii) the capture of resources through the use of placement techniques based on prospecting demand with a view to maximizing the issue price of the shares, (iv) incorporation of an industrial or technological partner, or (v) in general, any operation that may be convenient for the company.

Any shareholder who has not paid such calls within the period established for said payment of unpaid capital shall be in default.

Shareholders in arrears with the payment of calls on share capital may not exercise their voting right. The amount of their shares shall be deducted from the capital stock for the calculation of the quorum.

Neither shall defaulting shareholders be entitled to receive dividends or to preferential subscription in new shares or convertible bonds. Once the amount of the capital calls has been paid, together with the owed interests, the shareholder may claim the payment of the dividends not prescribed, but may not claim the right to preferential subscription if the period for exercising it has already expired.

When the shareholder is in default, the Company may, as appropriate and in view of the nature of the unpaid contribution, claim the fulfillment of the payment obligation, with payment of the legal interest and any damages caused by the delayed payment, and may, at the shareholders’ account and risk of the defaulting shareholder or file summary proceedings for collection against the assets of the shareholder in order to collect in cash the underdelivered unpaid part of the capital together with the interest.

In the case of existing any shares that have not been fully paid up, the shareholders are obliged to pay any sums outstanding on their shares as and when decided by the board in a maximum period of five years from the date of the share capital increase decision. Regarding the way and the details of the payment, will be according to the share capital increase decision, this agreement may stipulate the way of payment either through a monetary contribution or a non monetary contribution.
Existing shareholders and convertible debentureholders will have no preferential subscription right when the capital increase is made to convert debentures into shares, for the takeover of another company or part of the assets spun off from another company, or when the company has made a takeover bid, the consideration of which is, entirely or partly, to be paid in the form of shares issued by the company.

Article 22. - Special resolutions, constitution and majorities

In order that the General Meeting, whether ordinary or extraordinary, may validly resolve on the issue of debentures, the increase or reduction of capital, the transformation, merger, demerger or winding-up of the Company and, in general, any modification of the Articles of Association, it must be attended, at the first call, by shareholders, present or represented, who hold at least fifty per cent (50%) of the subscribed voting capital. At the second call, it will be sufficient for twenty-five per cent (25%) of the said capital to be present.

When the General Meeting is attended by shareholders representing less than fifty per cent (50%) of the subscribed voting capital, the resolutions referred to in the first paragraph of this article may only be legally adopted by the vote in favour of two thirds of the capital present or represented at the Meeting.

Special resolutions for modifying the last paragraph of article 27 of the Articles of Association relating to the maximum number of votes that may be voted at the General Shareholders Meeting by a single shareholder or by companies belonging to the same Group, as well as resolutions to modify this special provision, shall require in both the first and second call the affirmative vote of 75% of the Company’s voting capital stock present or represented at the General Meeting.

Report of the Board of Directors on the proposal of resolutions concerning the third point of the Agenda (“Amendment of the Regulations of the General Shareholders Meeting”).

1. Purpose of the report

In pursuance of article 2 of the Regulations of the General Shareholders Meeting, the Board of Directors of Repsol YPF, S.A. (the “Company”) submits this report to justify the proposed amendment of certain Articles of the Regulations of the General Shareholders Meeting, laid before the General Meeting of Shareholders for approval.

2. General justification of the proposal

The amendments laid before the General Meeting of Shareholders for approval are proposed to adapt the current test of the Regulations of the General Shareholders Meeting to the Articles of Association as amended in accordance with the proposals of resolutions concerning the second point of the Agenda, which main purpose is adapting such Articles of Association to the recent amendment in the regulation of Joint Stock Companies by Law 3/2009, April 3rd.

3. Detailed justification of the proposal

Having broadly defined the reform, we now justify and explain in greater detail the specific amendments to the Regulations of the General Shareholders Meeting submitted to the general meeting for approval.

1. Amendment proposal of paragraph 3.5 of Article 3 of the Regulations of the General Shareholders Meeting, related to the powers of the shareholders meeting.

Current paragraph 3.5 of Article 3 of the Regulations of the General Shareholders Meeting establishes the powers of the shareholders meeting in relation to the corporate events which, in accordance with Article 103 of the Joint Stock Companies Act, require strengthened majorities and quorum for the valid constitution of the meeting.

Law 3/2009 amended Article 103 of the Joint Stock Companies Act. New corporate events will require this strengthened quorum for the valid constitution of the meeting.

Therefore, it is proposed to include these corporate events in paragraph 3.5 of Article 3 of the Regulations of the General Shareholders Meeting.

2. Amendment proposal of paragraph 9.2 of Article 9 of the Regulations of the General Shareholders Meeting, related to special quorum constitution requirements for the valid approval of special resolutions.

Considering the amendment proposed in the previous item and the amendment proposal of Article 22 of the Articles of Association, it is proposed to include in paragraph 9.2 of Article 9 of the Regulations of the General Shareholders Meeting the corporate events that require strengthened quorum for the valid constitution of the General Shareholders Meeting, added by Law 3/2009 to Article 103 of the Joint Stock Companies Act (suppression or curtailment of preferential subscription rights in issues of new shares, transfer en bloc of assets and liabilities and the transfer of the registered office abroad).

To facilitate comparison of the old and new versions of the Articles to which amendments are proposed, a transcript of both texts is incorporated in this report in two columns, for purely informative purposes.

The proposal that the Board of Directors presents to the General Shareholders’ Meeting in this point on the agenda was approved at the request of the Audit and Control Committee, which is competent according to the Regulations of the Board of Directors, to select the External Auditor that will provide the audit services corresponding to the fiscal year 2010 for the Company and its Consolidated Group.
The system governing derivative acquisition of own shares is regulated in articles 75 and following of the Joint-Stock Companies Act, passed by Legislative Royal Decree 1194/1996, of 22nd December. These articles were recently modified by Law 5/2009, including the following amendments:

- The maximum term of the authorization of the General Shareholders' Meeting to the Board for the acquisition of own shares is increased from 18 months to 5 years.
- The maximum nominal value of the shares acquired plus the ones directly or indirectly already owned cannot exceed 10% of the capital stock, according to paragraph 2 of Article 75 of the Joint-Stock Companies Act.

Since 1996 the General Shareholders' Meeting has authorized the Board of directors to acquire shares of Repsol YPF, S.A., either directly or through controlled companies. This authorization may not, under any circumstances, exceed 5 years. In the case of shares of Repsol YPF, S.A., listed on a secondary securities market, the nominal value of the shares acquired plus the ones directly or indirectly already owned cannot exceed 10% of the capital stock, according to paragraph 2 of Article 75 of the Joint-Stock Companies Act.

The reason for this proposal lies in that the authorization granted by the last Ordinary General Shareholders' Meeting, held on May 14th, 2009, was subject to the maximum legal term of 18 months established in the regulations in force at that time. For this reason, if this resolution was not passed, Repsol YPF, S.A. could not purchase its own shares from November 14th 2010 on, and thus prior to holding the Ordinary General Shareholders' Meeting for the fiscal year closed on December 31st 2010.

It should also be pointed out that the acquisition and sale of own shares by Repsol YPF, S.A., is subject to strict regulation by the Internal Code of Conduct of the Repsol YPF Group in respect of the Stock Markets, in order to avoid any distortion in the market prices.

The proposal to delegate those powers to the Board, including the delegation for exclusion of the preemptive rights, is subject of strict regulation by the internal code of conduct of the Repsol YPF Group, in order to avoid any distortion in the market prices.
3. Justification of the proposal to delegate to the Board the powers to suppress the preferential subscription right.

In accordance with Article 159.2 of the Joint Stock Companies Act, the General Shareholders’ Meeting, when it deems necessary, properly justified by the Board and required by the corporate interest, can also delegate to the Board the power to suppress the preferential subscription right.

The power to suppress the preferential subscription right can only be exercised by the Board in those events required by the company interest, provided that the par value of the new shares plus, if applicable, the share premium, will correspond to the fair value determined by the auditor appointed by the competent Commercial Register, such fair value being referred, unless the contrary is proved, to the quoted price of the shares.

Only the Board can determine in each moment whether the suppression of the preferential subscription rights is proportionate to the benefits to be obtained by the Company and, therefore, decide the suppression because of the corporate interest. In any case, the Board will have to comply with the conditions required by Law.

The Board of Directors considers that this power to exclude the preemptive rights is complementary to that of increasing the capital is justified for several reasons. First of all, the suppression of the preemptive rights tends to allow the relative lowering of the costs associated with the operation (including in particular the commissions of the financial institutions involved in the issue) in comparison with an issue with preemptive rights. Secondly, the power to eliminate the preemptive right puts the administrators in a position to considerably increase the speed of action and response sometimes demanded by current financial markets, allowing the Company to take advantage of the times in which market conditions prove more favourable. Furthermore, the suppression of the preemptive rights means less distortion of the negotiation of Company shares during the issue period, which tends to prove shorter than in an issue with rights.

Although the Joint Stock Companies Act does not in any way limit the AGM’s capacity to confer authority on the board of directors to eliminate pre-emptive subscription rights, within the maximum limit of 50% of the company’s share capital at the time of authorisation, the board of directors has deemed it more suitable, in line with international recommendations and tendencies in best market practices, and in order to help protect shareholders’ interests, to limit this power to a maximum of 20% of the Company share capital at the moment of granting the resolutions, provided that, pursuant to article 159.2 of the Companies Act and as made manifest in this report, the Company’s best interests are properly explained to the shareholders.

Even so, note should be taken that the exclusion of the preemptive rights is a power that the General Shareholders’ Meeting delegates to the Board of Directors and that the latter must, after taking into consideration the specific circumstances and in respect of the legal requirements, decide in each case if it is proper to exclude said right or not. In the event of the Board of Directors deciding to make use of the possibility of excluding the preemptive rights in a specific capital increase to which it may resolve, making use of the authorisation granted by the General Shareholders’ Meeting, it will when resolving the increase issue a report explaining the specific reasons of company interest which justify that decision to eliminate the right, which will in turn be covered by the relevant auditors’ report referred to in article 159.2 of the Joint-Stock Companies Act. Both reports will be made available to the shareholders and made known to the first General Shareholders’ Meeting to be held after the agreement for increase, according to what is laid down in said precept.

Report of the Board of Directors on the proposal of resolutions concerning the eighth point on the Agenda (“Delegation of powers to supplement, develop, execute, rectify and formalize the resolutions adopted by the General Shareholders’ Meeting”).

This is the usual resolution that empowers the Board of Directors to execute the resolutions of the General Shareholders’ Meeting, including the powers to register the annual financial statements as well as the resolutions subject to this requirement.

As set out in the 11th Additional Provision of Act 14/1998 on the hydrocarbons sector, as per the wording of Royal Decree Law 4/2006, 24 February, administrative authorization must be sought from the National Energy Commission for certain holding acquisitions that involve companies that carry out regulated activities or activities that are subject to administrative intervention which entails a special binding relationship.

The Ruling of the Court of Justice of the European Communities (CJEC) of 28 July 2008 set out that, by enforcing this requirement, the Kingdom of Spain has breached the obligations incumbent upon it under articles 43 (freedom of establishment) and 56 (freedom of movement of capital) of the European Community Constitutional Treaty.

Any restriction on voting rights

• Article 27 of the Corporate Articles of Association of Repsol YPF, S.A. lays down that the maximum number of votes that an individual shareholder, or companies belonging to the same Group, may cast at the General Meeting of Shareholders shall be 10% of the Share Capital with voting rights.

• Furthermore, article 34 of Royal Decree Law 6/2000 sets out certain restrictions on the exercise of voting rights in more than one principal operator in the same market or sector. Among others, it lists the markets for the production and distribution of fuels, the production and supply of liquid petroleum gases and the production and supply of natural gas, principal operator being understood to be any of the entities that hold the five largest shares in the market in question. Such constraints are specified as follows:
  • Natural or legal persons who have a direct or indirect holding of over 3% in the Share Capital or the voting rights of two or more principal operators in the same market may not exercise the voting rights attached to the excess over and above such percentage in more than one of those companies.
  • A principal operator may not exercise voting rights representing more than 5% of the Share Capital of another principal operator in the same market.

These prohibitions shall not apply to parent companies which have the status of principal operator with respect to their controlled companies that have the same status, provided that such structure is imposed by the legal system or is the consequence of a mere redistribution of securities or assets among companies in the same Group.

The National Energy Commission, as the energy market regulatory body, may authorize the exercise of the voting rights attached to the excess, provided that this does not favour the exchange of strategic information or entail risks of coordination in their strategic activities.

Rules applicable to the appointment and replacement of directors and to the amendment of the Articles of Association.

  c. When, in the opinion of the Board, subject to a previous report by the Nomination and Compensation Committee:
    1. Their remaining on the Board could jeopardise the interests of the company or adversely affect the functioning of the board or the reputation of the company; or
    2. The reasons for their appointment have disappeared. This includes, in particular:
      • Institutional Outside Directors, if the shareholder they represent or that proposed their appointment disposes of all their shares. They shall also tender their resignations and resign, should the board so deem fit, in the corresponding proportion, if the shareholder in question disposes of part of its shareholding interest, to an extent requiring a reduction in the number of its institutional outside directors.

The retirement of Independent Outside Directors may also be proposed as a result of takeover bids, mergers or other similar corporate operations entailing a change in the ownership structure of the company, insofar as this may make it necessary to establish a reasonable balance between Institutional and Independent Outside Directors, in accordance with the ratio of capital represented by the former and the rest of the capital.

- Amendment of the Articles of Association

This exception will not be applicable when the company is legally obliged to disclose this information.

The company participates in exploring and exploiting hydrocarbons through consortiums or joint ventures with other oil companies, both public and private. In the contracts that govern relations between the members of the consortium the other partners are usually granted a right of first refusal over the holding of the partner on which a change of control takes place when the value of said holding is significant in relation to the overall assets of the transaction or when other conditions set out in the contracts occur.

Likewise, according to the rules regulating the oil and gas industry in the different countries in which the company operates, the transfer, total or partial, of research permits and exploitation concessions as well as, on occasions, the change of control in the concessionaire entity or entities and in particular in the entity that has the status of raining area operator, are subject to prior authorisation by the competent administrative authority.

In addition, the agreements entered into by and between Repsol YPF and Caja de Ahorros y Pensiones de Barcelona (“la Caja”) relating to Gas Natural SDG S.A., reported as relevant events through the Securities Market Commission, as well as the Industrial Agreement Activity between Repsol YPF and Gas Natural SDG S.A. foreseen in the abovementioned agreements and disclosed as a relevant event on 29 April 2005 and the Partnership Agreement between Repsol YPF and Gas Natural SDG relating to Repsol–Gas Natural LNG S.L. consider the change in the control structure of either of the parties to be grounds for termination.

Agreements between the company and its directors, executives or employees contemplating compensations when the latter resign or are dismissed without cause, or if their employment relationship is terminated as a result of a takeover bid.

- Executive Directors

The Chairman and the Secretary and General Counsel are entitled to a Deferred Economic Compensation in the event of termination of their relation with the company. Such termination is not due to any default of their obligations or at their own desire, without any of the justifying causes contemplated in the contract. The amount of the compensation for termination of the relation is three years’ total monetary remuneration.

- Executives

The Repsol YPF Group has established a single legal statute for its executives, set out in the Executive Contract, which regulates the compensations applicable in cases of termination of the employment relationship, contemplating as grounds for compensation those stipulated in current legislation.

For members of the Executive Committee, these grounds include resignation by the executive following a business succession or major change in the ownership of the company, resulting in a material change in the members of the governing bodies or in the contents and approach of the principal activity of the company.

The amount of these compensations is calculated according to the age, seniority and salary of the executive, except in one case, for which compensation has been established at the equivalent of three years’ total monetary remuneration.

Additional information of these matters is detailed in note 22 to the Consolidated Annual Accounts.
Competences of the board of directors and the nomination and compensation committee

The competences of the Board of Directors and its Nomination and Compensation Committee on Directors’ remuneration are established in the By-laws and in the Regulations of the Board of Directors. In accordance with article 5.3.c) of the Regulations of the Board of Directors, the Directors’ emoluments and, in the case of Executive Directors, the additional remuneration for their executive duties and other conditions of their contracts, have to be approved by the Board. The Nomination and Compensation Committee, in accordance with article 33.4.a) of the Regulations, will propose to the Board its remuneration policy, assessing the responsibility, dedication and incompatibilities required to the Directors. In the case of Executive Directors, the Committee proposes to the Board their additional remuneration for their executive duties and other conditions of their contracts.

Remuneration policy for directors

1. Corporate Governance framework.

The Spanish National Securities Market Commission (Comisión Nacional del Mercado de Valores) approved on May 22nd, 2006 the Unified Good Governance Code as single text on corporate governance recommendations. The main purposes of this Code were to (i) unify the existing recommendations in Spain until 2005; (ii) harmonize them with those made after that date (OECD principles and European Union recommendations, among others); and (iii) take into account the views of experts from the private sector as well as those from the State Secretariat for the Economy, the Ministry of Justice and the Banco de España. One of the main principles of the Code is its voluntariness, subject to the “comply or explain” internationally known principle expressly cited in Article 116 of the Securities Market Act. With this report Repsol YPF follows the new recommendations and continues its transparency policy on remuneration, treating separately the remuneration of Executives and non-Executive Directors and including a description of the main principles of the remuneration policy inside the Group.

2. General principles of the remuneration policy for Directors.

In respect of the exercise by Directors of their oversight and group decision duties, the purpose of the remuneration policy is to remunerate them in a suitable way for their dedication and responsibilities without jeopardizing their independence. In respect of the exercise by the Executive Directors of their executive duties (apart from their oversight and group decision duties), their remuneration is adapted to the executives remuneration general policy inside Repsol YPF Group, explained hereinafter. Repsol YPF desires to be placed as an admired and distinguished Company in the fields it operates for the high value added, the excellence in management, the organization culture and the quality of its executive team. In this regard, Repsol YPF understands remuneration as a value generating element through which the Company is able to retain and attract the best professionals, assuming undertakings with its executives and making them feel part of the organization.

Following these criteria, the determination of the total remuneration takes into consideration comparative figures from the Spanish large corporate groups. The remuneration of the Chief Executive Officer also takes into consideration the trends evolution of the European energy market.
Therefore, the total remuneration must be understood in view of the whole of the remuneration package, harmonizing the balance among all of its elements (fixed, variable short term and medium term remuneration and social benefits):

- Fixed remuneration: is determined taking into consideration the market references mentioned before and the sustainable contribution of each executive.
- Annual variable remuneration: its purpose is to motivate the performance of the executive and assess annually his or her contribution to the achievement of the established goals and to the development of the organization Values. Its maximum amount is established as a percentage of the fixed remuneration.
- Multi-annual variable remuneration: the Company has implemented monetary medium term incentive programs, with a four years measurement period.

These programs sought to strengthen the ties of the executives with the interests of the shareholders through the sustainable creation of value, remunerating the contribution to the achievement of the strategic goals of the Company, and, at the same time, furthering the continuation of the executives within the Group in an increasingly competitive employment market.

- Other benefits: above described monetary remunerations are complemented with welfare systems and health and life insurances, aligned with the reference market practices.

3. Directors remuneration structure

A. Fixed remuneration

a. Due to membership on the Board of Directors of Repsol YPF

In accordance with Article 49 of the bylaws, the Company may pay remuneration equal to 1% of its net profit to its Board members each year for the exercise of their oversight and group decision duties, but this amount can only be paid after covering the legal reserve and any other compulsory reserves and declaring a dividend of at least 4%. The Board of Directors shall decide on the exact sum payable within this limit and on its distribution among the Directors, taking into account the positions held on the Board and its Committees by each Director.

The Nomination and Compensation Committee shall propose to the Board the criteria it considers appropriate to achieve the purposes of this Article of the By-Laws.

The remuneration of the Directors is calculated through the allocation of points for the membership to the Board and its Committees.

The Board of Directors held on February 25, 2009 agreed not to increase the value of the point for 2009, keeping the value of the point set for 2008 fiscal year (Euros 86,143.51 - annual gross).

b. Due to membership on the Board of Directors of subsidiaries

The amount accrued by the CEO in 2009 for his membership in the Board of Directors of Group companies, jointly controlled companies or associates, totalled 533,988 euros (67,738 euros for his membership in the Board of Directors of Pemex Intern. España, 265,650 euros for his membership in the Board of Directors of Gas Natural SDG, S.A.). The amount accrued in 2009 by the Director and General Counsel for the same concept totalled 103,396 euros (95,169 euros for his membership in the Board of Directors of Compañía Logística de Hidrocarburos, S.A. and 8,227 euros for his membership in the Board of Directors of YPF, S.A.).

The Non-Executive Directors have not received remuneration of any other kind due to membership on the Board of Directors of Group companies, jointly controlled companies or associates.

c. Due to the discharge of executive duties

This Section contains information regarding fixed remuneration accrued by the Executive Directors due to the holding of executive positions and the discharge of executive duties.

Taking into consideration the aforementioned, the fixed remuneration earned by the CEO and by the Director and General Counsel in 2009 amounted to 2,310 thousand euros and 959 thousand euros, respectively.

B. Annual variable remuneration

Inside the Board, the short term variable remuneration is only applicable to Executive Directors. The annual variable remuneration of the Executive Directors is calculated as a percentage of their fixed remuneration taking into consideration the global evaluation of their performance. The CEO and the Director and General Counsel have accrued in 2009 an annual variable remuneration of 264 thousand euros and 384 thousand euros, respectively.

(1) The statutory attention for being member of the administrative bodies of the Repsol YPF Group and participated companies are deducted from the CEO's annual variable remuneration.
C. Multi-annual variable remuneration

Since 2000, the Nomination and Compensation Committee (formerly the Selection and Compensation Committee) of the Board of Directors of Repsol YPF has been implementing a loyalty-building program geared initially toward executives and extendable to other people with responsibilities within the Group. This program consists of setting a medium-term incentive as part of the remuneration system.

At the end of the 2009 fiscal year, the 2006-2009, 2007-2010, 2008-2011 and 2009-2012 incentive plans were in effect, although it is worth noting that the first of the above-mentioned programs (2006-2009) was closed, in accordance with its terms, on December 31, 2009, and its beneficiaries will receive their respective variable remuneration in the first quarter of 2010, after evaluation the degree of achievement of their objectives.

The said programs are separate from each other, but their primary characteristics are the same. In all cases, these are specific multiple year remuneration plans for the fiscal years included in each one of them. Each plan is tied to the achievement of a series of Group strategic objectives. The achievement of the respective objectives gives the beneficiaries of each plan the right to receive the medium-term variable remuneration in the first quarter following the fiscal year in which it ends. Nevertheless, in each case, the receipt of the incentive is tied to the beneficiary remaining in the service of the Group until December 31 of the last fiscal year in the program, with the exception of the special cases discussed in its specific terms.

In all the incentive plans, if obtained, would consist of an amount determined at the time of its granting, applying a first variable coefficient, in accordance with the degree of achievement of the objectives set out, additionally multiplied by a second variable coefficient, tied to the beneficiary’s performance throughout the period covered by the program.

None of the four plans implies the delivery of shares or options to any of its beneficiaries, nor is it pegged to the value of Repsol YPF stock.

The CEO does not participate in any of the incentive programs in force at this time. Nevertheless, the degree of achievement of the program expiring each year will be taken as reference for the determination of the multi-annual variable remuneration of each year which will be paid in the following year.

The Director and General Counsel is a beneficiary of 2006-2009, 2007-2010, 2008-2011 and 2009-2012 programs. During 2009, the CEO and the Director and General Counsel have accrued a gross value of 988 thousand euros and 322 thousand euros, respectively, for this concept.

Inside the Board, this remuneration concept is only applicable to Executive Directors.

D. Welfare systems

Repsol YPF considers that the remuneration package of the Executive Directors must have a composition in accordance with markets trends. In this regard, the remuneration previously detailed is complemented with a welfare system.

An insurance policy covers the retirement, disability and decease contingencies of the CEO, with Repsol YPF acting as policyholder. In case of termination of his relationship with Repsol YPF, the CEO will acquire the ownerships of the funds. The CEO is the beneficiary in case of retirement and disability. In case of decease, the beneficiaries are those appointed by the CEO.

The Director and General Counsel is a beneficiary of the Loyalty Premium (Premio de Permanencia), a remuneration concept of deferred payment. The purpose of this concept, implemented through a Securities Investment Fund (Fondo de Inversión Mobiliaria – FIM) called Loyalty Fund (Fondo de Permanencia), is to reward his continuance in Repsol YPF Group.

Annually Repsol YPF contributes to FIM, under the form of participations, a 20% of the annual fixed remuneration of the Director and General Counsel. The Company is the owner of such participations until retirement of the Director and General Counsel. Upon his retirement, the Director and General Counsel will be the owner of the participations. In addition, in case of termination of his contract (when he is entitled to severance payments) and upon his 62 birthday, he will be entitled to receive the accumulated amount of the Loyalty Premium.

He is also participant of the Repsol YPF pensions’ plan of defined contribution, which maximum annual contribution was collectively agreed on 7,212 euros.

The calls to meeting are communicated, with a minimum advance notice of 48 hours, by letter, telex, telegram, fax or e-mail, and will include the agenda of the meeting. The meetings are normally held at the registered office of the company, but they may also be held at any other address determined by the Chairman and stated in the call to meeting.

For the Committee to be validly constituted, it is required that more than half of its members attend the meeting, in person or represented, except in the event of a lack of call to meeting, which requires the attendance of all of them. Members of the Committee who do not attend the meeting in person may confer their representation on another member of the Committee.

The Chairman of the Committee regularly informs the Board of Directors of the progress of its activities. The Committee drafts an annual calendar of meetings and an action plan for each fiscal year, including an Annual Report on its actions, informing the Board of this. Similarly, at least once a year the Committee assesses its operation and the quality and efficiency of its work, informing the Board of this.

Main activities carried out in the 2009 Fiscal Year

In the 2009 fiscal year, the Audit and Control Committee met on ten occasions, as described in the Appendix.

In fulfillment of its essential duty of acting as support for the Board of Directors in its tasks of supervising, and among other activities, the Committee carried out the periodic review of the economic/financial information, the supervision of the internal control systems and the control of the independence of the External Accounts Auditor. This report contains a summary of the activities performed by the Committee.

Attached, as an Appendix, is a calendar of the meetings held by the Audit and Control Committee during the 2009 fiscal year, with a description of the main issues discussed in them.

Economic/financial information

During the period covered by this Activity Report, the Audit and Control Committee has analysed, prior to its presentation to the Board, and with the support of the Economy/Finance General Department and the External Accounts Auditor of the Company, the annual financial statements for the 2008 fiscal year, and the quarterly and six-monthly statements for the first quarter, first six months and third quarter of the 2009 fiscal year. Similarly, the Committee has verified that the Annual Financial Statements for the 2008 fiscal year, submitted to the Board of Directors for their approval, have been certified by the Chairman and the Group Managing Director of Finance and Corporate Services (CFO) on the terms required by the applicable internal and external rules.

Besides this, the fact that the Repsol YPF Group is listed on the New York Stock Exchange requires the submission to the SEC of the Annual Report on Form 20-F, a report that contains the Group’s annual financial statements and financial information according to the criteria set out by US legislation. To this effect, the Committee has reviewed the content of this report prior to its filing.

Similarly, the Committee has checked the content of the Consolidated Financial Statements for the 2008 fiscal year which the Company, in its capacity as company listed in Argentina, has submitted to the Comisión Nacional de Valores (CNV) and the Bolsa de Comercio in Buenos Aires.

Internal control systems

In order to check the internal control and risk management systems periodically so that the main risks are identified, managed and adequately understood, the Committee has monitored the progress of the Annual Corporate Audit Plan, aimed at covering the Group’s critical and significant risks.

Throughout the fiscal year, the Committee has been informed by the Corporate Audit Director of the most relevant facts and recommendations made evident in the tasks performed in the year and the status of the recommendations issued in previous years.

Similarly, the Committee has been informed regarding the systems to control reserves, the annual planning scheme, directed to assess the running and suitability of the internal control systems of the Company in the identification and moderation of the fraud risks, inefficiencies in the internal control, non-fulfilment of the rules and legislation, reputational risk and inadequate assets protection and control over the participated operations; the credit risk management of clients and debtors, the exchange rate and the interest rate, and the theoretical methodological approach proposed to measure an prioritize the risks of the Risk Map; the Compliance Program conceived as one of the factors that mitigate “Regulatory and Compliance Risks”.

Additionally, the Audit and Control Committee has supervised the adaptation of the internal control system on financial information of the Repsol YPF Group to the requirements of the
6.3 Relations with the internal auditor

Besides what has been described in the above section, the Committee has, in accordance with the stipulations of the Regulations of the Board, ensured the independence and efficiency of the Internal Audit and that it has the adequate qualification and resources to fulfill its duties in the Group, both in terms of staff and material elements, systems, procedures and manuals of action.

Similarly, the Committee has been informed of the closing and evaluation of the Annual Plan of Corporate Audit 2008, and analyzed, approved and monitored the Annual Corporate Audit Plan for the 2009 fiscal year.

6.4 Relations with the external auditor

a. Selection of the external auditor for the 2009 fiscal year

In fulfillment of the duties assigned to it, the Audit and Control Committee proposed to the Board of Directors, for its subsequent submission to the General Shareholders’ Meeting, the re-election of “Deloitte S.L.” as the Accounts Auditor of Repsol YPF, S.A. and of its Consolidated Group, for the period of one year, for the review of the Annual Financial Statements and the Management Report of Repsol YPF, S.A. and of its Consolidated Group for the 2009 fiscal year.

The Board of Directors, for its part, agreed to submit this proposal to the Ordinary General Shareholders’ Meeting held on 14 May 2009, which approved it.

b. Pre-approval of the services provided by the external auditors

In order to comply with the requirements of the Sarbanes-Oxley Act and other regulations applicable to the Company, and as a measure of good corporate governance, the Audit and Control Committee, in its task of ensuring the independence of the External Auditor, agreed in the 2003 fiscal year on a procedure to approve previously all the services, be they auditing or not, provided by the External Auditor, whatever their extent, scope and nature. This procedure is regulated in an Internal Rule mandatory for the whole of the Repsol YPF Group.

By virtue of this, during the 2009 fiscal year, the Audit and Control Committee previously approved all the services provided by the External Auditor.

Similarly, a delegation of powers to the Chairwoman of the Audit and Control Committee was established so that she may authorize the services provided by the External Auditor. Making use of this delegation, the Chairwoman has approved the provision of a series of services for which the ratification of the Committee has after been requested.

c. Information received from the external auditors

In addition to the information provided by the external auditors in other meetings of the Committee, at the meeting of the Audit and Control Committee, held on 23 February 2009, and prior to the review of the annual financial statements, the external auditors of the Repsol YPF Group, Deloitte S.L., after their confirmation of independency in compliance with the rules of the SEC of the United States, informed the Committee of the main aspects noted in the audit of the Annual Financial Statements of Repsol YPF Group at 31 December 2008 and its review of the System of Internal Control over Financial Reporting (SICFR).

In this respect, the external auditors informed that the audit opinion on the Annual Financial Statements of Repsol YPF S.A. and the Consolidated Annual Financial Statements of Repsol YPF Group was favourable and contained no exception whatsoever. They similarly reported that no “material weakness” had been detected in the SICFR to mention to the Committee.

Similarly, at the meeting of the Audit and Control Committee held on 24 June 2009 and in accordance with the professional audit rules in force in the United States (PCAOB Standards), Deloitte informed the Committee prior to the recording of its audit opinion in the SEC with regard to the “Annual report on form 20-F.”

6.5 Oil and gas reserves

In fulfillment of the duties assigned to it, in the 2009 fiscal year the Committee supervised the sufficiency and the effective operation of the registry and internal control systems and procedures in the measurement, valuation, classification and accounting of the oil and gas reserves of the Repsol YPF Group, such that their inclusion in the periodical information of the Group is in line at all times with sector standards and applicable regulations.

6.6 Environment and security

With the aim of knowing and guiding the policy, objectives and directives of the Repsol YPF Group in the areas of environment and security, throughout the fiscal year the Committee has been informed by the Resources Department of the evolution of the main security data and environmental parameters and of the actions taken and the objectives of the Repsol YPF Group in these areas.

6.7 Assessment of the operation of the Audit and Control Committee

Based on the most important requisites and functions of the Audit and Control Committee contemplated in applicable legislation, in the Articles of Association and the internal regulations of the Board of Directors and the Committee, the Audit and Control Committee made an assessment in 2009 of its own operation and efficiency in line with the recommendations of the “Unified Code”.

In view of the results of that assessment, at its meeting of 27 January 2010 the Audit and Control Committee concluded that its operation was satisfactory and that it correctly performed the duties commissioned to it in the applicable laws and internal regulations.

6.8 Disclosure Committee (“Comité Interno de Transparencia”) of Repsol YPF, S.A.

The Audit and Control Committee has been informed regularly throughout the year on the activities of the Disclosure Committee, receiving and considering the information remitted to it by that Committee.

6.9 “Communications to the Audit Committee” Application

In accordance with current regulations in the United States for all the companies that are listed on the Stock Exchanges in that country, and as a Corporate Best Governance measure, in the 2009 fiscal year the Audit and Control Committee set up a procedure for persons so wanting to be able to inform it of any incident or irregularity regarding matters related to accounting, internal accounting controls and auditing that affect the Repsol YPF Group.
This application can be accessed by both employees of the Repsol YPF Group, through the intranet, and other interested parties, through the Company website (www.repsol.com). In both cases, the complete confidentiality and anonymity of the persons sending the information is guaranteed.
Similarly, these communications can be sent by e-mail or by postal mail to the addresses enabled to this effect.
The Audit and Control Committee has supervised the measures adopted with regard to the communications received over this system.
